

SPRINT REVIEW REPORT GROUP 05

Sprint 6: Hardening & QA

Boot-Tracker: Lead Management and Payment System

Organization: Coding Bootcamps ESPOL

Project: Boot-Tracker Platform

Closing Date: 2 de agosto de 2026

Sprint Summary

Sprint 6 delivered its planned hardening scope (session-expiration security control, UI/UX bug fixes, the mobile Quick Call feature, and a critical role-escalation security fix) alongside a much larger wave of client-driven change requests: a full bootcamper self-onboarding flow with invitation tokens, a cohort model per program, a Salesperson/Finance role split, and a web+mobile meetings module — 37 additional issues, all closed within this sprint's window. All product-scope work for this sprint is Done; two minor cosmetic UI polish items (transition animations, web and mobile) are carried forward to final delivery.

User Stories Covered

- HST-003: automatic session expiration after 2h of inactivity.
- HST-030: Quick Call logging from the mobile app.

Sprint Tasks (Linear)

Issue	Description	Assignee	Status
CB-72	S6-1 - Scrum: Sprint Review S6 + hardening backend	Jose Chong	Done
CB-93	HST-003 - Expiracion automatica de sesion (2h de inactividad)	Zahid Diaz	Done
CB-75	S6-4 - Frontend: correccion de bugs UI/UX + polish visual	Gabriela Jimenez	Done
CB-76	S6-5 - Frontend: validaciones finales + testing de usabilidad	Annabella Sanchez	Done
CB-77	S6-6 - Mobile: Quick Call (HST-030) + correccion de bugs mobile	Isabella Martin	Done

CB-133	S6-9 - Security: PATCH /api/auth/me/ permite auto-escalada de rol (fix critico)	Juan Munizaga	Done
CB-114	S6-7 - Frontend: animaciones de transicion y micro-interacciones	Gabriela Jimenez	Carried to Final Delivery
CB-115	S6-8 - Mobile: animaciones de navegacion y transiciones de pantalla	Isabella Martin	Carried to Final Delivery

Additional Client-Driven Scope Delivered This Sprint

Beyond the planned milestone scope, the following work was delivered in response to live client feedback and usability findings during this sprint window. Each item is a real, closed Linear issue; grouped here by theme for readability. Full per-issue detail: [SCRUM_Evidence/Sprint_6/github_issues_s6.md](#) and the Linear workspace.

Theme	Description	Status
Bootcamper onboarding and cohorts (26 issues)	New cohort model per program (CB-136), admin cohort/program management (CB-139/143), role split Salesperson vs. Finance with a bootcamper pool (CB-152), self-service bootcamper onboarding via one-time invitation token (CB-157/158/159/161/162), coordinator multi-program scoping (CB-137/138), web + mobile meetings/agenda module (CB-142/150/151/140/144), admin-owned lead views and RBAC hardening on conversion (CB-145/146/147/148), unified password-recovery flow (CB-141), cohort/discount selection at conversion time (CB-154/155/171).	Done
Payments UX polish (10 issues)	Finance pool distribution and request history (CB-175), admin toggle for auto-assigned collection (CB-181), Spanish-localized bootcamper payment screen with amount-owed card (CB-176), tabular payment history without a program selector (CB-182), reject-and-resend backend for rejected payments (CB-178), bootcamper cannot upload receipt bug fix (CB-177),	Done

	server-side critical-state coordinator validation (CB-180), invite-email on user creation (CB-179), verify/reject notification email to the bootcamper (CB-183), read-only history with admin unassign (CB-185).	
Analytics (1 issue)	Unassigned-leads card on the Leads Management screen (CB-135).	Done

Key Decisions

- Given the volume and priority of client-driven change requests validated through live usability sessions, the team prioritized shipping the bootcamper onboarding and cohort management flow within this sprint, ahead of purely cosmetic UI polish, which carries forward to final delivery.
- Production monitoring and the formal regression pass continue as internal engineering practice (not a client-facing deliverable): by this sprint the automated test suite covers unit, integration, and end-to-end acceptance levels across backend, web, and mobile.

Customer Conformity and Acceptance
